WORK EXPERIENCE

Company: Sears Holding India Pvt. Ltd, Pune.

Title: Front-End Developer, **Time Period:** December 2021 to February 2024.

Tasks Performed:

- Implemented a feature in the HomeWarrantyPlansPage to trigger the 'shsGlobal' event when plans are loaded, adding attributes 'Default Plans' and 'Personalize Plans' to the event.
- Added 'datametricid' and 'datametricvalue' attributes for location pages, components and for CTA buttons on SHS website.
- Enhanced mobile user experience by adding a virtual numeric keypad for specific flows.
- Updated styling for various components, such as progress bars and various other modals.
- Removed unnecessary scripts and implemented enhancements for mobile and footer components.
- Fixed bugs related to a duplicate shsGlobal event on edit address field.
- Improved error handling for forms, ensuring name fields do not accept numeric values.
- Implemented a custom fallback error pages for 404 and 500 HTTP error codes.
- Improved handling of disclosures in the Home Warranty Add Program flow.
- Fixed suggestion list, alphabet highlighting and sorting issues improving search UX experience.
- Utilized tools such as chrome devtools to troubleshoot problems with website functionality.
- Implemented best practices for improving LCP, including migration to nextjs13 images, lazy loading, image compression, which contributed to measurable outcome, such as faster load times.
- Analyzed and optimized LCP across multiple sears pages using tools like Google Lighthouse and Chrome DevTools, leading to a one percent reduction in load times and improved Core Web Vitals scores.

Company: mPHATEK Systems Pvt. Ltd, Pune.

Title: Software Developer, **Time Period:** November 2024 to Present.
